## CLAIM AGRICULTURISTS CANNOT AFFORD PRESENT TAXES

### Conference Favors Continuation Of Farmers' Creditors' Arrangement

REGINA, Nov. 11.—A maximum interest rate of four per cent on agricultural credits was asked Thursday by delegates attending the concluding session of the Saskatchewan wheat pool annual meeting.

Believing interest rates charged in the past were higher than the ability of the farmer to pay, the wheat pool board of directors to make all representatives possible for a maximum four per cent rate.

#### FAVOR PLAN

The delegates also expressed the view the farmers' credit arrangement act should continue to operate without a large volume of work lay ahead of the board of review in Saskatchewan. Further, it was asked for a plan for the act was still in its experimental stage to enter an agreement against these earlier adjustments, on the ground that many of them could not be carried out.

Since the present board of review began to function in August 1937, down to the end of October 1938, total debts reviewed and approved to \$115,000. Reductions of \$7,000 had been made, also a total saving of \$53,000 in annual interest charges.

Altogether, 1,302 proposals had been formulated in this period. The volume of credit was \$1,040,000, the average reduction of annual interest was \$1,000, and the average annual interest reduction in interest charges \$571.

#### APPLICANTS

At the present time the board of review had about 1,400 applicants from farmers to deal with weekly.

An economic survey to establish actual production values was favored. The proposed survey would seek to determine how much debt in different districts might be expected to carry, and the rate of interest should be charged.

## Wartime Premier Says Munich Pact Has Bred Anxiety

### Continued From Page One

LONDON, Nov. 12.—David Lloyd George, wartime prime minister, last night declared the world's only chance for a "just and durable peace" lay in calling a conference of all great powers. Such a conference, he said, should discuss "without reference to past experiments or present ideologies, the best means of securing peace."

The spirit of relief which passed through Europe when it was known that the Munich pact had brought temporary peace in its wake was a scale which will mark civilization to its foundations and precipitate a catastrophe which will bury the work of centuries."

Declaring he did not recall any period during his lifetime when the international atmosphere was more charged with distrust, antagonism and apprehension, he said the results of the Munich peace accords were disappointing.

### FACT FAILS TO SATISFY

"The Munich pact which it was hoped its authors would bring peace in our lifetime, has been followed everywhere by feverish activity and new projects for increasing the scale of the war."

In Canada has brought a demand for more tariffs on automobiles. This may apply particularly to machines not produced in any great quantity in Canada.

Lower automobile prices are also popular in Canada. The West has been clamoring for lower prices for some time. The Canadian government has been reluctant to lower prices for some time.

### BAR CANADIAN LUMBER

The Democratic imposed restrictive and prohibitory regulations which while no tariffs were just as effective in shutting out Canadian lumber.

The last democratic move was to demand that all imports be marked with the country of origin, every stick of it. This would have cost in much as to practically shut it out.

It may be found that in the new treaty stipulations concessions have been made to the Canadian lumber industry.

The Western provinces of Canada have been clamoring for lower cost of lumber, and the fact that the lumber industry has been able to reduce its prices is a fact.

## YCHOW TAKEN IN JAPANESE HUNAN DRIVE

### Invaders Register Major Gain In Their March On Capital

SHANGHAI, Nov. 12.—Japanese troops early today occupied Yenchow, gateway to Hunan province, to register a major gain in their drive on Changsha, provincial capital. The victory gave them possession of an important rail and river center and placed them within 80 miles of Changsha.

Japanese reported the Chinese were withdrawing from their long-held Shih River line protecting Nanchang, Chinese air base in Kiangsu province.

### 600 JAPS KILLED

Chinese reported 600 Japanese were killed in a counter-attack against Nanchang.

### CHUNGKING, CHINA, Nov. 12.—

South China armies converging on Japanese-held Canton from three sides have reached positions six miles from the city, general headquarters here claimed today.

They stated three columns of the Chinese troops fighting in Kwangtung province, reported demolished by the Japanese capture of Canton a month ago, were making a determined bid to recapture the great commercial center.

A number of towns taken by the Japanese within a 15-mile radius of Canton in the early days of the Canton campaign have been recaptured, Chinese spokesmen said.

### CANADA BENEFITS

Canada benefited greatly by the preference, but it is understood that she may have had to waive, say 50 per cent of her preference to get concessions in other directions.

These will form the subject of much discussion at the caucus. In the meantime members are beginning to arrive for the caucus and session. Fred Anderson, S.C. Calgary and W. R. King, S.C. Cochrane are among the early arrivals.

### CEREMONIES

Opening ceremonies, including the Speech from the Throne, are expected to be brief. Spectators are not expected to be on the floor of the house for the opening or the proceedings of the house, are expected to proceed as soon as the opening ceremony is completed. PARIS, Nov. 12.—The possibility of the Duke and Duchess of Windsor might establish a home in England soon after Jan. 1 was forecast by some of the couple's friends today as the ultimate result of their meeting with the Duke and Duchess of Gloucester.

As the royal brothers' reunion came to an end, it was said they had discussed the Duke of Windsor's permanent return to England. The duke was expected to depend on a public reaction to their presence in the country to lead to the royal family in Sandringham.

The Duke and Duchess of Gloucester flew today to London. They are returning from a visit to East Africa.

## CROWD STORMS MUNICH HOME OF CARDINAL

### Continued From Page 1

MUNICH, Nov. 11.—Excited crowds stormed the palace of Cardinal Cardinal von Faulhaber today and broke all windows in the building.

The attack followed an address before 5,000 persons last night by Adolf Wagner, Nazi district leader for Bavaria and Bavarian minister of interior, in which he read a letter from the Cardinal asking police protection in case popular passions should result in attacks on Catholic clergy in the present tense situation.

### OFFERING NO EXCUSE

"If von Faulhaber mends his ways he will be protected better than the police can," Wagner shouted. He added he was offering no excuse for anti-Jewish violence that burst out Thursday.

Only last Sunday, the 69-year-old Cardinal, Archbishop of Munich, used a passage from a speech by Chancellor Hitler to support a plea for "the God-given rights of personality." He recalled that Hitler had been given the right to exercise his creative personalities. The sermon was greeted by whistling by Nazi hordes.

# Canadian Wheat Shipped Overseas Unsold

## FEAR OF WAR CAUSED MUCH CHANCE WORK

Unusual Condition Exists  
This Year In Grain  
Exporting

WINNIPEG, Nov. 12.—Revival of export demand and more stability in overseas export markets had a steady influence on world wheat futures this week. Winnipeg prices recovered from five-year lows to close the five sessions Thursday one cent higher to unchanged.

Trading frequently increased to a much broader scale than in recent weeks but price ranges were generally narrow. November, with the largest gain, went to 84½, December 84½ and July 84½ cents.

**EXPORT SALES JUMP**  
Improved absorption of unsold wheat at Liverpool resulted in the demoralized export market of early November when wheat prices sagged steadily. Canadian export sales jumped to 2,500,000 bushels compared to insignificant amounts the previous week.

Much of the business, estimated at 12 cargoes, was of a distress character and sold for less than market value. Traders, however, believe these shipments have been recently all cleared up, bringing healthier tone.

Seldom has Canadian wheat reached Liverpool or other European ports unsold. Brokers say it is a product of the September war scare. Exporters there, from a scarcity of ocean tonnage and, anticipating broad demand for winter-baked large ocean freight in advance.

**CRISIS AFFECTS TRADE**  
Fears of war over the Czechoslovak-Sudeten German issue changed overnight with the Munich four-power agreement. Import buyers became scarce. At the same time European wheat surpluses were pressing.

Developments in the United States and Argentina attracted attention. Post-election buying developed late in the week in United States with strength in securities reflected on commodity markets.

Coarse grains had a listless week, closing Thursday with oats 5½ higher to 14 lower, barley 14½ off, flax 24½ down and rye 14½-15 cent higher.

## ARAS LEFT OUT IN SHUFFLE OF TURKEY CABINET

ANKARA, Turkey, Nov. 12.—Turkey's veteran foreign minister, Tefik Rustu Aras, was dropped last night when General Ismet Inönü took office as president of Turkey pledged to carry out the work of his friend, the late Kemal Ataturk.

Prime Minister Ismet Inönü formed a new cabinet at Inönü's behest. The reshuffle eliminated Aras who for 12 years had guided Turkish foreign policy during the period which Turkey emerged from the ruins of the Ottoman Empire to become a modern power.

Justice Minister Sukru Saracoglu succeeded him. Other cabinet posts were left unchanged except the home ministry where Sukru Kaya was succeeded by the former minister of public health, Refik Sargan.

## MAN BEATEN IN ARGUMENT WITH MONKEY

TORONTO, Nov. 12.—A loose monkey was scrambling about the northern portion of the city last night and David Corrigan, Toronto, nursed a badly lacerated hand—also because Corrigan decided to give a monkey to his girl friend.

Police said Corrigan bought the animal at a pet shop along with a collar and chain. He drove to his friend's home but the monkey refused to leave the car, flew into a rage and bit his master's hand.

The small animal, chattering with rage and clattering with cold, snatched Humane Society officials who tried to capture him, then took to a tree and disappeared.

## Five Japanese Boat Companies Merge

TOKYO, Nov. 12.—The cabinet Friday approved a merger of five Japanese steamship companies to improve transportation in Japanese waters and between Japan, Korea and Manchukuo.

The new company will be capitalized for about \$300,000,000 (about \$11,250,000 at current parity). Work will be started on reconstruction of harbors.

**German Consul at Boston Threatened**  
BOSTON, Nov. 12.—Karl B. H. acting German consul at Boston, Friday, notified Boston police he had received a telephone threat the consulate would be blown up at 10:45 a.m. Saturday. Several police officers immediately were detailed to investigate.

## Seriously Ill FATHER HELD AS BABE DIES OF INJURIES

Chicago Man Says He Slapped Infant In Distraction Over Crying

CHICAGO, Nov. 12.—A young father was held in police custody today after telling officers he slapped his infant son, Tod, on the head to distract over the baby's prolonged crying, causing fatal injuries.

Policeman Irwin Schmidt said the father, Ralph Koeh, 24, appeared at the state police headquarters in suburban Norwood Park last night and said:

"I think I killed my baby. I want to give myself up."  
Police took the four-month-old baby to a hospital where he was pronounced dead.

## BECAME DISTRACTED

Koeh was caring for the child while his wife, Marcia, 20, was at work. He told police he tried for two hours to quiet the youngster and, becoming distracted, suddenly slapped him. Tod was the Koeh's only child.

The remorseful father, held without charge pending inquiry by police and his wife were released yesterday after being separated since shortly after the baby's birth.

## Chief Of Capering Males Is Strong On Athletic Essentials

MONTREAL, Nov. 12.—Tod Shawn wears No. 9 shoes, has the build of a football player and knows just what you think of male dancers because he's been a dancer for a quarter-century. He's close to 60 years old, a fast mover, never gains from looking at him, especially on the stage.

Son of a Kansas newspaper publisher, Shawn is starting the sixth tour of his all-male dance troupe, formerly was the husband and dancing partner of Ruth St. Denis. Before that he studied for the Methodist ministry.

What do people think of male dancers?  
"Well, at one time our audiences used to be made up mostly of women who came to see a bunch of semi-nude, good-looking young men," he said. "You might compare it with what we called the bald-headed row of the old burlesque. Now we estimate our audience is made up of from 30 to 60 per cent men, many of whom are athletes or businessmen."

## REGAINED LEGS

Shawn learned to dance for the sole purpose of regaining the use of his legs, made almost useless by illness when he was 18 and a divinity student. He got pretty good at it and for 25 years has been a star and master. His season's premiere of "Dance of the Ages" here was acclaimed by critics and public.

Shawn looks like an all-round athlete and the eight other members of the cast, he said, were chosen as outstanding athletes of their respective colleges. Follows the heavy work and Shawn follows through with the theme and makes pleasantly obvious the motive of his message presentation.

On the stage there is no scenery but heavy brown drapes and green carpet. The dancers all barefoot, wear colorful lin cloths through most of the show.

## VOCATION FOR MEN

"Men love to dance but they always have been given something stupid," Shawn said. "Folk dancers, for instance, were mostly for children. If you give men something virile, something in sport or labor quality, they will like the strong, virile rhythm. It always has been the men who took the important part in dances, even in primitive Europe and America where the dance is considered feminine."

"Women have not the physical endurance for strenuous dances. All things being equal, it is easier to teach a man dancing than a woman. And the man will enjoy it under proper instruction. He'll find it more balance for his muscular system than in golf, tennis. Dancing gives you something that will stay with you. And it's 'find your muscles'."

## LEAD NOMINAL LIFE

All year round the troupe lives together, on a 20-acre farm not far from Springfield, Mass., in the summer. They "work" the farm and the only hired man is a cook. Otherwise, the men grow, sow the crops, do all repair work and even prepare the menus which provide for "meats, vegetables, fruits and very little meat."

"In this way, our men are healthier and lead a more normal life than they would in a city. A man, for instance, who has been plowing on the farm all summer has in muscles and in his mind the actual experience required to portray a labor motive."

## Sir John Simon Charges United States Struck Blow Ruining League of Nations

PERSON, Eng. Nov. 12.—The United States struck the first serious blow which led to undermining of the League of Nations as an instrument of universal peace, Sir John Simon, Chancellor of the Exchequer, charged last night.

American statesman, he continued, had contributed much to the framing of the conception of a world institution, "but no international organ can claim the title of a world institution with the United States jettisoned."

Sir John, speaking at a League of Nations union meeting here on cause of the Geneva body's failure to fulfill its function, said withdrawal of Japan from the league in 1932 profoundly affected its influence in the far east.

He then turned to a vigorous denial of reports British policy, accused of showing undue favor to Japan over the Manchurian content, was responsible for the first "mortal blow" struck at the league's prestige.

The fact Japan resigned from the league in protest against its attitude on the Manchurian issue exposed "the fatal so industriously elevated in some quarters," he declared. Sir John was British foreign secretary at the time of Japan's withdrawal from the league.

A great many interesting letters received by the Editor of The Bulletin are too long for publication. Our correspondents would

**No Connection**

Editor, Bulletin: Our attention

two, and the Taxpayers' Protective Association is not backing any candidates in the Civic Elections. We would appreciate it if you would make this clear to your readers.

**No "King of Canada"**

Editor, Bulletin: I feel quite sure in stating that there is no such thing as the King of Canada. There is, however, a King of Great Britain who is King in Canada. There is only one crown and not six tary to the Marquess of Lansdowne, being then Lord Melgund. He came in for some criticism from Colonel G. T. The B.N.A. act states that we are under the King of Great Britain—but not that he is the King of Canada.

These powers lie with the British parliament and with the Indian Canadian militia. Denison gave Melgund a horse to take him to Qu'Appelle, where he took train for Ottawa, very angry because his request had been refused by a Canadian colonel.

There being no personal union between Great Britain and Canada, there is therefore no King of Canada.

that might be force to sit behind her. I should think that the fair sex, with all their common sense would realize this point and remove such creations when sitting down.

## According To Culbertson

At rubber bridge particularly, when declarer must choose between two lines of play, he should not be greatly influenced by the fact that

defeat while the other can lose by only one trick. He should concentrate on only one thing: Picking up the trick with the greatest chance for success. But it does not without saying that when both plans have an equal chance, the North dealer is selected.

West is the declarer. He has a good chance of making his contract. He has a good chance of making his contract. He has a good chance of making his contract.

As a matter of fact, declarer could not have fulfilled his contract without guessing that the diamonds were split 3-2. This is a guess which would have permitted him to ruff a third round of hearts with a high diamond and to have finished against the ten spot in West's hand up to dummy's Q. But, of course, however, would smother of doubt dummy play. My point is that the

Blane raised his fourth bid.

Heard, his partner told him, was dead. Declader had nothing to lose by playing dummy's card. But East covered with the king and drove out the diamond jack. East won, and since only one spade was left, he attacked, shifted to the heart king. Declader went up with his full ace and then cashed the diamond king, discovering that West had the heart queen. Declader knew it now was necessary to provide for at least two of South's backtraces. He cashed the heart king, the heart king and let his low heart to dummy's queen. Then, with his

West would ruff and cash two tricks, but declader still had the heart king. If he ruffed for a chance, it was West, the defender, who would have the heart king. In four hearts, the cashing of the heart king would force the heart king to declader's actual play. In short, there was a lot of cards that could give a player a chance to declader's play, even the direct plan of cashing the top heart.

## Cough Remedy at Home

### A Big Saving, and It's So Easy! No Cooking!

Coughs and colds usually result in a large quantity of sugar syrup—a good thing, if you're sick. But if you're not, it's a waste. Here's how to make a cough syrup at home. Take 2 cups of granulated sugar and 1 cup of water, and stir a few moments until dissolved. No cooking! No trouble at all!

Then get your very original 24-ounce Pfizer, not a 16-ounce one, and add your syrup. This gives you 16 ounces of liquid. Add 16 ounces of real winter cough. It makes a real saving for you, because it gives you four times as much cough remedy for your money. It's better, longer lasting, and it's a lot cheaper.

This is a very effective, dependable cough-syrup acting *cough remedy* for the relief of coughs and colds. It has no effect in the air passages. It loosens the mucus, soothes the irritated throat, and makes your breathing easy. You're not more bothered with the quick relief in clearing up coughs.

Pfizer is a compound containing: No. 1, Pine, is concentrated form, a well known cough remedy. No. 2, is a water cough. Money refunded if you don't place you a return slip.

## Don't Neglect Dry Skin During Winter Months

By ALICIA HART

There is no time of year when the skin is more neglected than in the winter months. The cold, dry air and the use of heating devices tend to dry out the skin, making it itchy and uncomfortable. It is important to take steps to keep the skin moist and healthy during this season.

It is not only the face that needs attention, but the hands and feet as well. Using a good quality cream or lotion regularly can help prevent dryness and cracking. For the face, a gentle cleanser and a rich moisturizer are best. For the hands and feet, thicker creams or ointments are more effective.

## "Over The Teacups" Twenty Years Ago

From the Files of The Edmonton Bulletin

Twenty years ago, the social scene in Edmonton was quite different from what it is today. The Bulletin has a collection of old photographs and articles that provide a glimpse into the lives of people from that era. One of the most popular pastimes was tea parties, which were often held in private homes or at the local club.

These parties were not only a social gathering but also a way for women to express their creativity. Many of the women who attended these parties were skilled in the art of needlework and would bring along their own creations, such as quilts and embroidered linens. The Bulletin has featured several articles about these events, highlighting the talent and community spirit of the women of that time.

Today, while the social customs have changed, the spirit of community remains. Modern events and gatherings continue to bring people together, providing a sense of connection and shared experience.

## Heart-To-Heart Talks - - - By Kathleen Norris

There Is No Harder Moment In Life Than This

When a heart is troubled, it is often because of a lack of understanding or communication. Heart-to-heart talks are essential for resolving conflicts and building stronger relationships. These talks should be conducted in a calm and respectful manner, with each person expressing their feelings and listening to the other's perspective.

When Bob's mother required her consent to a marriage the boy found his beloved in her first refusal and a stretched time for marriage followed.

The story of Bob and his mother's relationship is a testament to the power of communication. Bob's mother was initially opposed to his marriage, but through a series of heart-to-heart talks, she came to understand his feelings and the importance of the relationship. This story serves as a reminder that patience and understanding are key to resolving difficult situations.

## DOROTHY DIX Says:

DEAR DOROTHY DIX: My husband and I have been having an argument about my keeping on with my job after we are married. He is against it. He says that a woman who works outside of her home cannot be as good a wife and mother as one who stays at home. I feel that I can be both a good wife and mother and still have a career. What do you think?

My employer is very stiff, but I think I should stand up for myself. I am a professional and I deserve to be treated with respect. I will continue to work and I will continue to be a good wife and mother. I hope you can help me with this situation.

## Opposing Forces Still Locked In

**Battle in Spain**  
HENDAYE, France, Nov. 12.—The five-day-old battle of the Segura river faced into its fourth day today. Armistice Day with Spanish government and insurgent forces were reported locked in struggle again.

A line of concrete bunkers on a hill west of the Segura river, between Harguez and Hendaye, the centre of the battle-front, was drawn to dusk Thursday and the battle started again at dawn Friday.

Insurgent dispatches said the Government attempted to divert the insurgent pressure on the French front by attacking Hendaye, but failed to do so and was forced to retreat.

## WORLD EVENTS CAUSES U.S. TO RECONNOITER

Republic's Northern Ports  
Open to Invasion  
From Overseas

WASHINGTON, Nov. 12.—President Hoover, in his Associated Press column, Washington, D.C., writes:

"With so much dread over what will happen when Japan completes its conquest of China and when German trade pressure moves in on South America it should be interesting to remember that the United States has one vitally vulnerable spot which, for one reason or another, it cannot arm. That is Canada."

Another question is whether the United States should be concerned with the possibility of a Japanese invasion of the United States. The answer is yes, because the United States is a democracy and the United States is a democracy.

What Mackenzie, Canadian defence minister, discussing the 1937 military budget in the last Canadian parliament in May, explained it.

President's Gesture  
As a result of the gesture of the President, the United States is a democracy and the United States is a democracy.

Three months after Mackenzie publicly recognized the United States as one of its defenders, President Roosevelt similarly recognized the situation publicly. In a speech on his visit to Canada in August in connection with dedication of an international center at Thousand Islands he said the U.S. "will not stand idly by if domination of Canada should be threatened by any other empire."

The U.S. will not stand idly by if domination of Canada should be threatened by any other empire.

## Electric Power Serves the Coal Industry

**Yes! You can now heat your home Automatically with COAL**

ELECTRICITY has made possible the more convenient and economical use of many appliances and products. This same electricity will now be your FIRMAM. Through its automatic control of the modern STOKER, as shown on the right, all manual labor and furnace tending bother are removed from your heating problem.

This modern method of heating reduces consumption cost as well... and at the same time, extends the use of the coal market for Alberta's COAL, thus benefiting consumers and the Coal Industry, alike. In a country so richly endowed with Coal Resources and where heat is required for so large a portion of the year these advantages are doubly important.

# 4-1 DEFEAT

## Quakers Show Class With Full Strength

Anderson, Purcell and Maveety Best Edmonton Line—Alex McSparran Scores Lone Eskimo Goal

SASKATOON, Nov. 12.—Saskatoon Quakers defeated Edmonton Eskimos 4-1 in a senior exhibition hockey game here Friday before 2,500 fans. Edmonton won the first game of the three-game pre-season series at home by a 2-1 score last Thursday. The final game will be played here tonight.

Quakers, playing at full strength for the first time this season, held Edmonton on even terms in the first period, went into the lead with the only goal of the second period, and clinched the victory with two more counters in the third.

Saskatoon's goal on a rush with Les Bird and Glen Buchwald. Penalties were served in the third period by Jack Hasty, "Curly" Kerr and Andy Purcell before Jack Brown beat Stuart from a scramble in front of Edmonton net. "Bugs" Jansen bagged Quakers' first tally ten seconds later on a clever mark with Hunter. Hunter saved dangerous shots from Purcell and Maveety before the period ended.

Netters, Purcell and W. L. H. formed the best line for the Quakers while Jimmy Anderson, Andy Purcell and Mark Maveety gave Glen Loughlin his most dangerous run from line line.

DEADLOCKED After McIntyre was assisted to the dressing room following a minor injury, McSparran dashed the count on a shot that rolled into the net off defenseman "Curly" Kerr's arm.

Purcell drew a penalty late in the period and was given an extra minute for leaving the penalty box before his time was up. Quakers failed to score during the four minutes he was off the ice.

SURFAPY The second period was a struggle with both sides scoring twice. "Bugs" Jansen, drawing the only penalty of the season for boarding Paul Kewell scored.

# REGULAR JUNIORS RETAIN WESTERN CROWN

## Strong, Fast Wesleys Battle E.A.C. Tonight

Saskatoon Rebuilds Famous Junior Team of Past Seasons—Game Is Expected To Be Real E.A.C. Test

HECK FOWLER, a starry goalie himself in bygone hockey days, will lead a strong, completely revamped and rebuilt Saskatoon Wesley team against Edmonton Athletic Club's big junior squad at the arena tonight. It is the second exhibition game in which the E.A.C. juniors have competed. The clubmen won the first game against Winnipeg Monarchs by 3-0 score and are expected to take the Wesley speedsters. The opening whistle will start the game off at 8:00 p.m.

From the goal right out to the third front line, new strength has been added to the Wesley team. Charlie Sawyer will be back in the goal. He has been the star of the team since he was a member of this clever guardian. The defense, too, has been revamped. Fred Lines will be back in the defense as well as the Wesley team of old.

**PRODUCED STARS**  
Many star players have emerged from Saskatoon's hockey history. Two seasons the strength of the team was built and dropped to its lowest ebb last year. But the Wesley team was given a transfer of one star after another as the Wesley clubmen went out to build on the same home lines. Tonight many championship players will be in the line-up. The hockey men and spectators alike will be in for a surprise showing. The preview of the Abbott Cup play-off will be a real test.

## Allan Cup Champions Defeat Lethbridge 4-3

## Sarnia Club On Spot Over Player Today

TORONTO, Nov. 12.—The burning question of Sarnia's status in the Ontario Hockey Federation playoffs was put aside as the remainder of the section's season was prepared to close out regular season play with McGill's club at the University of Western Ontario in the final game.

The Sarnia problem will be unresolved until Toronto play when the decision of the O.H.F. will be made to decide what punishment will be handed Sarnia for playing Harry "Ho" Living at Peterborough Friday. Imports last night were warned to use one club's name only. It was decided whether to be Sarnia or the Canadian Rugby Union franchise.

**JULIED WICK OFFENSE**  
A number of players have been charged with offenses under the rules of the O.H.F. It is expected that the O.H.F. will be in a position to make a decision on the charges.

**NOTHING AT STAKE**  
For the first time in five seasons, nothing will be at stake when Quebec invades University of Toronto home grounds for their win-loss.

The interprovincial union leaders, Ottawa Rough Riders and Toronto Argonauts, should be in a position to make a decision on the charges.

**Bootlegging Ban On 'Peg Badminion'**  
WINNIPEG, Nov. 12.—Alleged bootlegging of bootlegging equipment by ranking amateur players in the Winnipeg was condemned in a statement Friday by J. L. Johnston, secretary of the Canadian Amateur Hockey Association. He warned such practices will result in the suspension of players.

Johnston said he had heard of amateur players receiving "several" dollars in cash for bootlegging equipment.

Living, he charged, was taken as a bribe, and was a violation of the rules of the O.H.F. He said that the O.H.F. would be in a position to make a decision on the charges.

WINNIPEG, Nov. 12.—Ponderosa Clarence "Toad" Springman, wearing his Winnipeg 1937-38 All-Star jersey, split the upright for a third quarter field goal.

The 19-year-old, 250-pound line-man, an unassuming placement kicker, tried his specialty only once Friday but the ball split the uprights cleanly. The field goal culminated a long down-field drive by Regina midway through the third quarter and was a short, deliberately timed shot from 30 yards out.

## Defeat Winnipeg 3-1 in Dull Contest

Slim Crowd Looks On As Husky Dale Line-man Splits Upright for Third Quarter Field Goal

WINNIPEG, Nov. 12.—Ponderosa Clarence "Toad" Springman, wearing his Winnipeg 1937-38 All-Star jersey, split the upright for a third quarter field goal.

The 19-year-old, 250-pound line-man, an unassuming placement kicker, tried his specialty only once Friday but the ball split the uprights cleanly. The field goal culminated a long down-field drive by Regina midway through the third quarter and was a short, deliberately timed shot from 30 yards out.

## THIS CURIOUS WORLD

by WILLIAM KERGUSON

### SEA-OTTERS

WERE SEEN BY WHITE MEN FOR THE FIRST TIME ABOUT 200 YEARS AGO, ON ISLANDS OF LOWER CALIFORNIA. THE ANIMAL HAD BEEN A STAPLE PROVIDER OF FUR AND FLESH FOR INDIANS OF THE PACIFIC FOR MANY YEARS.

THE ANIMAL, A RELATIVE OF LAND OTTERS, HAS WEBBED HIND FEET AND IS AN EXPERT SWIMMER. ITS HEAVY BODY IS ABOUT FOUR FEET IN LENGTH AND CLOSELY RESEMBLES A SEAL.

THE WONDERFUL FUR COAT, WHICH IS EQUALED IN BEAUTY ONLY BY THAT OF THE SILVER FOX, PROVED ITS UNDOING. SINGLE SKINS HAVE SOLD FOR AS MUCH AS \$2,000.

THE GREED OF THE WHITE MAN KNEW NO BOUNDS, AND THE SLAUGHTER BEGAN. OTTER-HUNTING EXPEDITIONS WERE FORMED AND THE ANIMALS WERE KILLED BY THE TENS OF THOUSANDS.

STEADY PERSECUTION CAUSED THE OTTERS TO DESERT LAND AND LIVE ALMOST ENTIRELY IN THE SEA, WHERE THEY SWIM MUCH OF THE TIME ON THEIR BACKS.

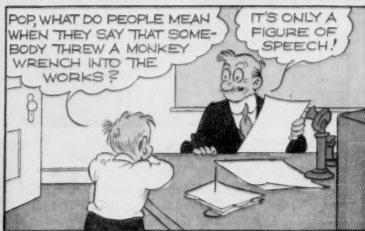

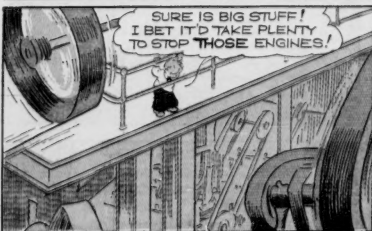

THEIR FOOD CONSISTS OF SEA LIFE. THEY CAN DIVE TO ENORMOUS DEPTHS AND STAY SUBMERGED FOR SEVERAL MINUTES AT A TIME.

## DICK TRACY

THE PITY OF IT IS — THIS MAN KARPIS SLIPPED THROUGH OUR FINGERS.

THE GOVERNMENT HAS SLAPPED A PADLOCK ON THE FACTORY, AND THE ENTIRE CREW OF MEN, WHO HAD BEEN HELD IN VIRTUAL SLAVERY, HAVE BEEN FREED!

DOC AND A MAN NAMED BEETWORTH WERE HIRED THEY THOUGHT THEY WERE BEING TAKEN TO A LUMBER MILL. INSTEAD, THEY WERE PUT UNDER GUARD AND FORCED TO OPERATE POISON GAS MACHINERY.

MEANWHILE, KARPIS, AFTER PASSING HIMSELF OFF AS A NEEDY HUSBAND AND OBTAINING WORK WITH A HIGHWAY CREW, LOSES NO TIME IN STEALING THE FOREMAN'S CAR AND GOING TO THE CITY.

YEAH, IT'S ME! I THOUGHT I'D FIND YOU HERE IN THE OLD HANGOUT.

BUT—I—THOUGHT... YOU WERE—

YES—SAY IT! YOU THOUGHT YOU HAD SHOT ME TO DEATH WEEKS AGO.

WELL, I'M VERY MUCH ALIVE, ALTHOUGH MY POISON GAS BUSINESS IS IN THE HANDS OF THE COPS—AND YOUR CHIEF RIVAL, HALONE, IS DEAD—IF THAT'S ANY COMFORT TO YOU!

YOU AND I ARE GOING TO BE FRIENDS AGAIN, MARRO, DEAR—REAL GOOD FRIENDS.

WE'VE ALWAYS HAD HIGH REGARD FOR EACH OTHER. OF COURSE — YOU GET A LITTLE JEALOUS ONCE IN A WHILE.

DID YOU COME HERE TO KILL ME?

NO—NO, MY DEAR! WHEN TWO INTERNATIONAL LAR—CRIMINALS LIKE YOU AND I ARE BEING HUNTED—WE NEED EACH OTHER, DON'T YOU SEE?

BUT, TRACY, WILL YOUR EYES BE ALL RIGHT? WILL YOU BE ABLE TO SEE AGAIN?

LISTEN, KID, WE'VE NEVER BEEN IN ANYTHING YET WE COULDN'T FINISH. OF COURSE THEY'LL BE ALL RIGHT. FIXING UP EYES IS NO TRICK!

SURE—FIXING-UP-EYES IS EASY! WHO—THE HECK IS WORRIED ABOUT THAT!
